BROOKLYN ITEMS.

SUNDAY RECREATIONS .- A number of ball matches teck place in the outskirts of the city yesterday, as is the case every fine Sunday. The police of the Third District broke up several games on the borders of the Tenth, Ninth and Eighth Wards, and arrested several persons who were engaged in the exercise.

RESCUED FROM DROWNING .- Francis Conly fell into the river near the foot of Fulton street on Saturday evening, while in a state of intoxication. Officer Beatty of the Second Precinct drew him out, and conducted him to the Station-House, when he was sent to his home in Howard's Court.

VIOLATION OF ORDINANCES .- Officers Strang and Corr arrested the following on Saturday for peddling without license and spilling dirt along the streets from carte: Michael Kidd, Richard Dorman, Thomas Griest Peter Gilmartin, Lawrence Burdett, Peter Flynn, George Dowling, and Michael Regan. They were taken before Justice Morehouse. Several were fined and the others were discharged with a reprimand.

OUT-DOOR EXERCISE -A number of Base-Ball Club have recently been organized, and two or three games take place now every day. Several Septs of Hurlers have also been instituted, and, with Cricket, games of some sort are now the order of the day, taking the place in a great measure of target excursious.

ALLEGED FORGERY,-Wm. L. Webb, a commercial agent, was arraigned before Justice Cornwell on Satarday, on the charge of forging a check for \$30 on the Broadway Bank, in the name of John Bradstreet & Sor, mercantile agents, New-York. The check was dated June 5, and on that day was given by Mr. Webb to W. & H. Miller, in Atlantic street, in payment for groceries. Webb endorsed the check, and Messrs. Miller took it without suspicion, endorsed it with their name, and sent it to the Brooklyn City Bank. There it was paid over to the Broadway Bank, and on the 14th it was returned to Mesers. Bradstreet, who detected the forgery. It was traced to Webb, and Mesers. Miller entered a complaint against him. The Justice he case to hold the ac cused, and he was held to bail to await the action of the Grand Jury.

A FEMALE BURGLAR. - Sergeant Rhodes of the Second Precinct police arrested a woman named O'Rourke, residing in Adelphi street, on the charge of burglary. It appears that some ten days since the Mr. Sizclair, in Clermout avenue, was robbed of several articles of value. On Friday the house was again robbed, and the accused having been seen coming out with a bundle was arrested. The goods stoler on both occasions were found at her residence, and she was committed by Justice Cornwell for trial.

COUNTERFEITERS ESCAPED .- Sylvester Collins and John Allen, charged with passing counterfeit bills on the National Bank of Providence some weeks since, and who were committed to jail, escaped from a deputy sheriff in whose charge they were placed to procure bail on Friday. They have not been heard of since, and it is likely will not be.

City Mortality.-The total number of deaths in this city last week was 166. Of these, 87 were males, and 79 females. Adults, 45; children, 121. The principal diseases were cholera infantum, 39; consumption, 75; infantile convulsione, 13; diarrhea, 11; dyseutery, 3; scarlet fever, 2; measies, 2; small-pox, 3, &c. 131 were natives of the United States; of foreign birth, 35.

COUNTERFEIT BILLS .- Counterfeit \$5 bills on the Litchfield County Bank, New-Milford, Conn., have been extensively circulated within a few days past.

SUNDAY AMUSEMENTS,-In addition to the usual lager-beer festivities in the Sixteenth Ward and other places, theatrical performances have been instituted on Sunday, and yesterday a place at the corner of Montrose avenue and Leonard streets kept by Carl Klink. was in full operation. The police are powerless to act, because the megistrates will not sustain them and assist in the execution of the law.

A party of twelve men and boys were arrested by the police of the Fifth Precinct yesterday afternoon for playing a game of ball in First street, near North Third.

TESTIMOSIAL TO THE REV. MR. MCSHANE,-A meeting of the leading members of St. Paul's (Roman Catholic) Church took place at the house of Mr. James Sullivan, in Willoughby street, on Thursday evening, for the purpose of presenting the Rev. Mr. McShan with some suitable testimonial, previous to his separation from them as paster, having come to the determi-nation to return to Ireland. Mr. McShane has labored long and realously for the good of his congregation, and his departure is greatly regretted. Mr. Cornelius Dever was called to the chair, and in a neat address referred to his many good services, and tendered the good wishes, the affections, and the prayers of the devoted people of Brooklyn, to carry with him to his native land. He then, on the part of the congregation of St. Paul's, presented him with a gold chalice, pater, a ciberium, cruets, and a gold watch and chain. The Rev. gertleman made an appropriate and feeling response, when, after an interchange of sentiments of hirdly and affectionate regard between the recipient of the elegant souvenirs and the donors, the company partock of a repast prepared for the occasion. Before parties, it was arranged that those present should | portant, Michigan Central went up to 50% anadvance

COMMERCIAL MATTERS

SATURDAY, Aug. 28 .- P. M. Movements at the Stock Board to-day, were more animated, and there was a general advance in the leading Stocks. The largest transactions were in New-York Central, Reading and Michigan Southern, the first two claiming especial prominence. Central went up to 8 on the call, but came out freely at the quotation, and at this point was sharply attacked by the bears, who succeeded in establishing for the moment a concession (). The seller contracts were taken, however, with ut hesitation, and the stock closed quite strong. Reading opened at 494, but was freely supplied, and on the second call dropped to 481, at which quotation it was in good demand. Michigan Southern halted in the same way after selling at 241 and was hammered down to 24s during the call, closing firm at the quotation. To ledo was steady without much change from yesterday prices. Galena and Rock Island were both in demand and quite scarce, with but small transactions, the ap parent inactivity arising from the reluctance of holder o meet the market, and the consequent inability of buyers to fill orders. Pacific Mail and Hudson Rive. advanced I each, but the dealings in each were unim

of | P cent. There was no session of the Second Board to-day, but the informal meeting in the afternoon was well attended, and the sales were in nearly every instance at an advance over closing prices of the morning. There was not much movement in bon is during the day, and the variations from Friday are too slight for especial notice. The railway returns now coming in from the West indicate considerable revival of business on the prominent lines. The Illinois Central and Michigan Southern already report very satisfactory figures for the third week in August, and we hear also of improvement on other lines, not officially reported yet. These facts, together with the cable dispatches from Europe and the continued abundance of money, combine to give a more confident and hopeful tone to the stock market, and the bulls, who but recently were either resting in "masterly inactivity," or touching stocks hesitatingly, are now buying with confidence and comparative vigor. The closing prices are for New-York Central, 801@802; Erie, 181@181; Galena, 841@841; Rock Island, 741@742; Toledo, 35@351; Reading 481 a 48; Michigan Southern, 24; a 24; Preferred, 46 Hudson River, 28] a 28]; Illinois Central, 77 a 77].

The business in Foreign Bills for the steamer to day was very small, and the quotations show no change. Sterling is 109 ± 109 ; France 5.13 ; € 5.11 }. The supply of outside Sterling Bills is quite light, and holders are firm.

Freights are very inactive. To Liverpool, we hear of 50 tuns at 20s. To Hamburg, 1,000 bbls. Rosin at 1s. 9d. To Rotterdam, 1,000 bbls. Rosin and 50 tuns Logwood on private terms; 6,000 light Pipe Stavee at \$21; 200 boxes Extract of Logwood at 15s.

The business of the Sub-Treasury was: Receipts \$166,540-from Customs, \$71,000; Payments, \$225, 269 86-California Drafts, \$22,000; Balance, \$13,418, 098 29. On Monday \$500,000 will be forwarded from the Sub-Treasury to the New-Orleans office.

Albert H. Nicolay's regular auction sale of Stocks and Bonds will take place on Monday, at 12] o'clock at the Merchants' Erchange. S. Draper's daily suction sales of Bonds and Stocks

will take place on Monday, the 30th inst., at 121 o'clock at the Merchants' Exchange.

Total. \$17,920 015 \$16,736,902 \$1,259,835 The money market during the week has shown no charge, the attempt made by some of the Banks about fifteen days since to put up the rates of interest has failed, and money is as easy to obtain on good paper and collaterals, and at as low rates as at any time since the revulsion of last fall. The supply of paper, although slightly increased, is rapidly absorbed either in banks or in the discount house, at 3 @ 4 per cent, for very favorite signatures at short date, and 1 a 6 P cent, for good names at 4 and 6 months. The current rate for dry goods paper due in February and March, is 5 % cent. On call money is abundant at 3 # 4 per cent on satisfactory collaterals, the lewer rate on Government and State stocks. The Banks are losing some of their interior and Southern balances, but the amount as yet is not important, and they are willing lenders where the security is desirable. The moderate improvement in business which is beginning to be felt throughout the country has not yet made any perceptible impression upon the inert masses of capita piled up here. That there is some renewal of the ok activity of business in this country is evident from the increase in the trems of the railroads reported during the latter part of this month, by the crowds which are filling up our hotels, and by the increass which is taking place in the advertising columns of the city journals. Nothing new has occurred in regard to the negotiations going on between the Erie and Central Roads. The Frie takes a very independent stand, and at present the Central appears to have decidedly the worst of the contest. It has been unable to enlist many of the Western Roads to join it against the Erie, and its edicts of non-communication return to plague the inventor. The matter certainly should be arranged, but where one party is so indifferent as in this case the Erie is, it is not easy for the other party to propose terms which

will be entirely satisfactory.

"Though this has been an important point for the export of mineral wealth from Mexico, the above is, we thick, the largest amount ever presented at any we think, the targest amount ever presented at any one time, and this is from parties who have heretofore shipped through Tampico. As affairs now stand in Mexico, the greater part of the trade for the northern portion of that country must of necessity be carried on by way of this frontier. Within the past ten years many new sources of wealth have been opened up. Hardly a week passes without the introduction of machine in the Markon destined for her numerous newly-

chinery into Mexico, destined for her numerous newly-opened mines, for manufacturing or agricultural pur-poses, and the mineral wealth of that country is con-stantly arriving, chiefly, for the present, in silver and The Pittsburgh Post of yesterday says:

The arthragin coalers is the lat of November."

The authracite coal trade this week from the Schuyl kill region shows a falling off. The Reading Railroad brought down 35,716 tuns for the week ending on Thursday last, against 40,703 tues for corresponding week last year, making the tunnage for the season 1,037,635 tune, against 1,286,678 tuns to same time last year. The Schuylkill Navigation Company shipped for the week ending on Thursday 42,257 tune, against 42,828 tuns for corresponding week last year, making the shipments this season thus far 689,953 tuns, against 796,213 tuns to same time last year. The Lehigh Vallsy Railroad has brought down only 9,585 tues for the week ending on Saturday last, being a loss of 2,387 tuns on cor.esponding week last year, making the season's tunnage 311,629 tune, and reducing the increase to only 1.645 tups. The shipments of coal by the Lehigh Navigation for the week to Saturday last, were 31,434 tons against 23,576 tuns corresponding week last year, making the shipments for the season 467,910 tune against 529,886 tuns to same time last year.

The annual meeting of the Memphis and Coarleston
Railroad Company was held at Huntaville, Ala., on the

The report of the President is a recapitulation of the The report of the freshent is a recspituation of the various causes why the profits of the road have not been such during the past year as was anticipated they would be. The recent failing off of the cotton crop along the line of the road, the failure of the East Viginia and Tennessee lines to form their connections as early as was expected, and the unprecedented floods in December and in April, have been added to the december the connections of the connections are all the connections as early as was expected, and the unprecedented floods in December and in April, have been added to the december and in April, have been added to the december and in April, have been added to the december and the connection of the connection resemp industries of monetary panic upon all indus-ial and commercial interests.

These were peculiarly unfortunate, as the past was

the first year within which the whole road had been at any time in operation.

Notwithstanding these drawbacks, we perceive that

be actual receipts and profice do not fall very largely below the estimate made at the beginning of the year, before these discoursging events had made themselves known or were suspected. That estimate gave, in round numbers, for receipts, \$1,000,000; for expenditures, \$450 000; net earnings, \$550,000.

The actual figures show, for receipts, \$964,410 65; expenditures, \$458,272 80; net earnings, \$516,137 85.

The whole cost of the road was \$6,024,642 50, that the ret earnings are more than \$1 \$P\$ cent annum.

The capital stock paid in is \$2 258 115. The interest

ard exchange paid out upon the funded floating debt is \$249.873. So that the fund on hard is equal to nearly 12 4' cent on the capital paid in. Considering the unfavorable state of things during the last year, the newress of the road, the frequent in-terruptions of business, and the large addition made to the expenses of the Company, this is a very favorable exhibit.

Homen Pregress. Henceforth, Europe, Weeks A is and Northern Africa lie within an hour's distant from our shores, and the battle which decides the fit of a kingdom, the capture of a Vienna or Good. tar, the fall of a dynasty, the triumph of a usurpe. tion, the birth of an heir to royalty, the death of a Nicholas or Wellington, in any country which louches the Mediterranean, the Euxine, the Back Sea or the German Ocean, will be published in New-York the next morning, if not on the very of its occurrence. In a moment, as it were to te been thrown into the immediate intellected neignborhood of the whole civilized and a large potion of the semi-barbarous world. The rise and fall of stocks in London or Paris will benceforth be reported from day to day in the journals of our maboard cities. The boldest operators in Wall-street will refuse to buy or sell until they have read the quatations of that day's business on the Royal Exchange and at the Bourse, whose transactions will have slosed an hour or so before ours can begin. A revolation in Paris, an important vote in Parliament, an is. surrection in Italy, a fire in Constantapple, will be discussed around the breakfast tables of New-York a few hours after its occurrence. A mire though elent transformation in the condition of he man existence has just been effected by the ine wire stretching across the ocean's bed fro the seast of Ireland to that of British America ud one inevitable result of this must be same pled community of feeling and interest among the nations of Christendom, and a consequent dens for a more intimate acquaintance with each others loings through the medium of the Newspan Press. It seems hardly possible that thousand should not henceforth regularly read their on journals, who have hitherte been content with u occasional glance at those taken by their neighbon; while many who have hitherto been content with Weekly issue will now require a Semi-Weekly or Daily. In short, Intelligence, always a vital element of growth in wisdom, success in business, or erjoy-

ment in life, has now become indispensable to ill.

-THE NEW-YORK TRIBUNE, now more than seventeen years old, which was the first journal's

the would that appeared regularly on an imperial

sight-page sheet at so low a price as two cests, and which has attained the unparalleled aggregate of more than 200,000 subscriptions, respectfully solicits its share of the new patronage which the Metropolitan Press is henceforth constrained, at a heavy weekly cost, to deserve. It asks especially the patronage and active avor of REPUBLICANS-of those who hate al forms of oppression, and desire that every rational being shall be free to employ his faculties is such innocent manner as he shall deem best-d those who would extend Liberty and limit Shary -but it further appeals likewise to ul who look and labor for the return of National thrift, plenty, prosperity, through the Protection of American Industry by wisely discriminating duties on Imports-all who favor National Progress through internal development and meliorates rather than by external aggression and extensionall who would rather have the National resources devoted to the construction of a Railroad to the Pacific than to the purchase or conquest of Mexico, Nicaragua or Cuba-all who would retrench radically our present inordinate Felend expenditures by abolishing or immensely relacing the Army and Navy, and expending the money thus saved on works of beneficence which will endure to bless our childrenall who profoundly realize that "RIGHTEOUSSES "exalteth a nation," and that no real advantage san ever accrue to any person or community free acquisitions or successes achieved by means which contravene the laws of Eternal Right. The free & lotment of limited portions of the Public Lands is Actual Settlers thereon, and every hopeful plus intended to diminish the sum of human miss; from dearth of employment or inadequate recorense-every scheme especially that the unfortunate by enabling and teaching them to help themselves-must command our earnest spa-

Within the present year, THE TRIBUNE has provided itself with a new and faster Press at a cost of \$30,000 merely that some of our subscribers may to ceive their papers a mail earlier than they otherwise might do. With correspondents at the most inportant points throughout the civilized world, and a staff of writers chosen from among the best is the country, we believe that even those who islike the politics of our sheet concede to it fraisness in avowing its convictions and ability in maistaining them. We appeal, then, to those who believe that an increased circulation of Tal TRIBUNE would conduce to the political, intelestual and moral well-being of the Repablic, to aid us in effecting such increase. As we employ no traveling solicitors of subscriptions, se ask our present patrons in every locality to speak to their neighbors and friends in our behalf; shall gladly receive from any friend lists of the who would receive and read a specimen copy of one of our editions, and shall be particularly grateful to those who may send us such names free post offices at which we have now no subscribes. Whatever additions may thus be made to our itenlation shall be paralleled by increased efforts and expenditures to make our issues more valuable of useful than they have hitherto been.
